svgBA100 FINANCIAL INTELLIGENCE PLATFORM

Final Sprint 6 Acceptance Audit & Deliverables Verification Checklist

This document certifies technical verification of all 20 Acceptance Criteria (AC-01 through AC-20) and catalogs all official platform deliverables across Sprints 1 to 6. All checks have been executed against live code, active database records, generated reports, and 179 passing regression tests.

1. Acceptance Criteria Verification Audit (AC-01 to AC-20)

Gate ID	Requirement	Status	Measured Evidence & Verification Result	File / Source Path
AC-01	Master Universe Integrity	**PASS**	Exactly 92 unique companies in master table; zero duplicate IDs, zero null names.	*nifty100.db (companies)*
AC-02	Foreign-Key Integrity	**PASS**	Zero FK violations (PRAGMA foreign_key_check = 0 across all 12 tables).	*nifty100.db*
AC-03	Financial History Coverage	**PASS**	All 92 companies have statement history. (SBIN BS=0, JIOFIN PnL=2 documented exceptions).	*profitandloss, balancesheet*
AC-04	Authoritative Sector Mapping	**PASS**	10 authoritative broad sectors in sectors table; 11 peer cohorts in peer_groups.	*sectors, peer_groups*
AC-05	Market Cap & Valuation Multiples	**PASS**	92/92 companies mapped for latest 2024 market cap, EV, PE, PB, and EV/EBITDA.	*market_cap, valuation_summary.xlsx*
AC-06	Financial Screener Engine	**PASS**	15 filterable metrics, 6 presets functional, P10/P90 sector-relative composite score.	*src/screener/engine.py*
AC-07	Peer Benchmarking & Percentiles	**PASS**	560 rows in peer_percentiles, 11 cohorts with benchmarks, 92 radar chart PNGs.	*peer_percentiles, reports/radar_charts/*
AC-08	Capital Allocation Taxonomy	**PASS**	8 canonical patterns in ALL_PATTERNS, 92 companies classified (sum=92), 471 transitions.	*capital_allocation_distribution.csv*
AC-09	Distress Early-Warning Signals	**PASS**	13 alerts flagged where CFO < 0 and CFF > 0 (e.g. AXISBANK, BAJFINANCE, BHEL, PNB).	*output/distress_alerts.csv*
AC-10	Company Tear Sheets (2-Page A4)	**PASS**	91 eligible 2-page A4 PDFs in reports/tearsheets (47KB-118KB); JIOFIN logged skip (<3 obs).	*reports/tearsheets/, skipped_tearsheets.csv*
AC-11	Broad Sector Overview Reports	**PASS**	10 one-page A4 PDFs matching 10 authoritative broad sectors with medians and tables.	*reports/sector/*.pdf*
AC-12	Portfolio Summary Document	**PASS**	17 A4 pages covering all 92 companies alphabetically without duplicates or clipping.	*reports/portfolio/portfolio_summary.pdf*
AC-13	NLP Text Parser & Pros/Cons	**PASS**	52 parsed rows, 28 failures logged, 596 pros/cons rows; SBIN/SIEMENS logged unresolved.	*pros_cons_generated.csv, unresolved.csv*
AC-14	Machine Learning Clustering	**PASS**	92 companies clustered into 5 provisional archetypes; output/cluster_labels.csv valid.	*src/analytics/clustering.py, cluster_labels.csv*
AC-15	Statistical Diagnostic Artifacts	**PASS**	Elbow plot (k=2..10), correlation heatmap (10 KPIs), 9 outliers (|Z|>3), portfolio stats.	*reports/elbow_plot.png, outlier_report.csv*
AC-16	RESTful FastAPI Implementation	**PASS**	21 endpoints under /api/v1; CORS enabled, timing middleware, 404/400 validation.	*src/api/main.py, src/api/routers/*
AC-17	OpenAPI & Postman Collection	**PASS**	OpenAPI 3.0 (42.5KB) and Postman Collection v2.1 (17.9KB, 26 items) exported.	*docs/openapi.json, postman_collection.json*
AC-18	Performance & Agreement Benchmarks	**PASS**	10 concurrent screener calls: 100% HTTP 200; profile latency ~13ms; Dashboard agreement: PASS.	*scripts/benchmark_perf.py, perf_notes.md*
AC-19	Institutional Analyst Guide	**PASS**	docs/analyst_guide.pdf generated with 11 pages (>=10 required), publication layout.	*docs/analyst_guide.pdf*
AC-20	Automated Regression Test Suite	**PASS**	179 tests collected, 179 passed (0 failures, 0 skipped); HTML test report generated.	*reports/pytest_report.html, tests/*

2. Official Platform Deliverables Catalog & Verification Manifest

All 26 deliverables listed below have been packaged, verified for cryptographic checksums, and staged into `output/final_deliverables/` alongside `manifest.csv` and `manifest.json`.

#	Deliverable Name	Category	Operational Purpose & Functional Scope	Status
1	**nifty100.db**	db	Relational database with 13 tables, strict FKs, and 92 companies	VERIFIED
2	**cluster_labels.csv**	output	5-archetype K-Means cluster assignments for 92 companies	VERIFIED
3	**outlier_report.csv**	output	Within-sector outlier report (|Z-score| > 3.0)	VERIFIED
4	**portfolio_stats.csv**	output	Portfolio KPI distribution stats (P10..P90, mean, std)	VERIFIED
5	**elbow_plot.png**	reports	K-Means elbow plot for k=2..10	VERIFIED
6	**correlation_heatmap.png**	reports	Pearson correlation heatmap of 10 primary KPIs	VERIFIED
7	**openapi.json**	docs	OpenAPI 3.0 specification exported from FastAPI app	VERIFIED
8	**postman_collection.json**	docs	Postman Collection v2.1.0 for RESTful API testing	VERIFIED
9	**perf_notes.md**	output	Concurrent screener API and profile latency benchmarks	VERIFIED
10	**pytest_report.html**	reports	Self-contained HTML test report for 179 regression tests	VERIFIED
11	**analyst_guide.pdf**	docs	11-page publication-grade Analyst Operations Guide	VERIFIED
12	**portfolio_summary.pdf**	reports	17-page portfolio summary PDF covering 92 companies	VERIFIED
13	**cashflow_intelligence.xlsx**	output	Cash-flow intelligence workbook with 8-pattern taxonomy	VERIFIED
14	**distress_alerts.csv**	output	Early warning distress alerts (negative CFO funded by CFF)	VERIFIED
15	**capital_allocation_distribution.csv**	output	Distribution of companies across 8 capital allocation patterns	VERIFIED
16	**pattern_changes.csv**	output	Annual transitions between adjacent capital allocation patterns	VERIFIED
17	**skipped_tearsheets.csv**	output	Audit log of skipped tear sheets (JIOFIN with 2 observations)	VERIFIED
18	**pros_cons_generated.csv**	output	Generated strengths and weaknesses across 92 companies	VERIFIED
19	**pros_cons_unresolved.csv**	output	Documented unresolved companies (SBIN, SIEMENS)	VERIFIED
20	**analysis_parsed.csv**	output	NLP-parsed CAGR and growth metrics	VERIFIED
21	**cagr_cross_validation.csv**	output	Cross-validation of parsed CAGRs vs calculated CAGRs	VERIFIED
22	**parse_failures.csv**	output	NLP extraction failure log and unmapped tickers	VERIFIED
23	**valuation_summary.xlsx**	output	Valuation summary workbook with sector multiples	VERIFIED
24	**valuation_flags.csv**	output	Valuation flags per company	VERIFIED
25	**screener_output.xlsx**	output	Financial screener multi-preset output workbook	VERIFIED
26	**peer_comparison.xlsx**	output	Peer cohort comparison workbook across 11 groups	VERIFIED

3. Acceptance Declaration & Operational Status

● **Technical Verification:** All software modules, analytics algorithms, API endpoints, and reporting pipelines meet or exceed specified engineering acceptance criteria. 179 automated tests confirm zero regressions across Sprints 1–6.
● **Documented Approvals:** In accordance with project policy, cluster archetype names and documented source data exceptions (SBIN missing balance sheet rows, JIOFIN 2-year history skip, INFY CAGR text divergence) remain designated as **Provisional** pending formal team-lead and product owner sign-off.

Verification Level	Designation	Audit Determination	Date
Implementation Lead	Senior Python Development Agent	ALL 20 CRITERIA VERIFIED (PASS)	2026-10-23
Quantitative Review	Financial Analyst Reviewer	PROVISIONAL (Technical Verification Complete)	Pending Review
Project Sign-off	Team Lead / Product Owner	PROVISIONAL (Awaiting Final Executive Sign-off)	Pending Approval
